

SPECIAL FUNCTIONS STATUS INFORMATION

*Informationen
bout the
ommunication
module*

WinPC-NC USB can solely be used in conjunction with the external accessory module ncUSB which must be connected by the delivered cable. The different versions of the communication module and the WinPC-NC main program are displayed in the corresponding window.

Whenever you have any queries for the manufacturer, always provide the version and controller number of the communication module as well as the version of **WinPC-NC**.
